Summary

Computer Science Engineering undergraduate with hands-on experience in MERN stack development, frontend web development, and database management. Skilled in Java, Python, JavaScript, MongoDB, MySQL, REST APIs, and SDLC. Experience building scalable web applications, responsive UI, and real-world academic and internship projects. Seeking an entry-level Software Engineer / Web Developer role.

Work Experience

Webnet Technologies

05/2024 – 06/2024

• Developed responsive websites using HTML, CSS, and .NET backend.

Patna, Bihar

• Improved website performance and UI usability by collaborating with cross-functional teams.

• Implemented client-driven UI/UX improvements using modern design principles.

• Followed SDLC phases including requirement analysis, testing, and deployment.

BHARAT INTERN, FRONTEND WEB DEVELOPER INTERN

11/2023 – 12/2023

• Developed responsive user interfaces using HTML, CSS, and JavaScript.

Remote

• Implemented interactive UI components and ensured cross-browser compatibility.

• Collaborated with team members to deliver project milestones on time.

Education

Bachelor of Technology in Computer Science and Engineering, Parul University

08/2022 – 08/2026

CGPA: 7.46

Vadodara, Gujarat

12th (PCM), Bindeshwar Singh College

03/2020 – 03/2022

PERCENTAGE: 64%

Patna , Bihar

10TH, Dr. D Ram D.A.V Public School

03/2010 – 07/2020

PERCENTAGE: 73%

Patna , Bihar

Skills

Programming & Data

Java, C++

Database Management

SQL, MongoDB

Concepts

OOPs, DSA, SDLC, Cloud Computing, Networking

Web Technologies

React.js, Node.js, Express.js , HTML , CSS .

Tools & Platforms

GitHub, VS Code

Soft Skills

Critical Thinking, Communication, Collaboration, Documentation, Problem Solving

Certifications

- NPTEL - Computer Networking
- NPTEL - Introduction to Internet of Things
- CPA - Programming Essentials in C++
- CISCO- Introduction to Cybersecurity

Projects

Challengify, | *MERN Stack Project*

- Developed a coding challenge platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented user authentication, profile dashboards, and recruiter challenge management.
- Designed scalable backend APIs and responsive frontend components.

Explore India

- Developed a dynamic travel website using HTML, CSS, JavaScript.
- Implemented destination listings, booking modules, and responsive UI.

TheStudySmith, *Your Ultimate Solution*

- Developed TheStudySmith, a WordPress-based educational platform for Parul University students to access and download lecture notes, study materials, and coding resources.
- Designed a user-friendly interface and organized content structure to improve usability and student learning experience.
- Achieved 50k+ page views and 15k+ unique visitors, demonstrating strong user engagement and platform adoption.

Additional Information

Quick learner

with flexibility to work across domains, roles, or locations.

Comfortable with

documentation, process optimisation, and new technology adoption.
